---

Ms. Salinas:

Intergulf received a General Notice Letter dated July 2, 2015 regarding the CES Environmental Services - Houston Superfund Site.

Intergulf hired CES to transport 5 loads of Petroleum Distillate to the Intergulf tanks located at the Magellan Terminal in Galena Park, Texas from August 21, 2008 to November 24, 2008.

If Intergulf agrees to enter into settlement negotiations with EPA Region 6, can the Agency provide an estimated settlement monetary range and does Intergulf assume liability for future enforcement actions as a result of this CERCLA action?

I look forward to hearing from you concerning this issue.

Regards

Stephen Wallace
